Throw Everything Away Club

What is the Throw Everything Away (TEA) Club?

We are a group of Yalies dedicated to the ideals of throwing things away and fighting the good fight against the endless hordes of enviro-deceivers.

• • •

What has the TEA Club done to help?

- We threw a charity banquet last year and raised over \$14,000, which we used as kindling to set an oil tanker on fire •
- We visit New Haven elementary schools to teach young children about the benefits of waste, and to throw away their school supplies •
- We host a weekly event on Old Campus, "Burn Electrical Equipment Tuesdays" •

• • •

Clint Eastwood, American Hero

Who Throws Things Away?

- Four-time Superbowl-winning quarterback Joe Montana
- Clint Eastwood
- UN Secretary-General Ban Ki-Moon

Who Recycles?

- Embattled radio personality Don Imus
- I. Lewis "Scooter" Libby
- Notorious serial killer Ted Bundy

• • •

Libby, American disgrace

Responding to the Propaganda of the Enviro-deceivers*

"Americans throw away 44 million newspapers every day. That's the same as dumping 500,000 trees into landfills each week."

- Awesome!

"It takes an entire forest—over 500,000 trees—to supply Americans with their Sunday newspapers every week."

- And I suppose we should just let these forests stand, despite the fact that they are home to literally thousands of dangerous wolves and hawks.

"If all the glass bottles and jars collected through recycling in the U.S. in 94 were laid end to end, they'd reach the moon and half way back to earth."

- And what about the other half? Every single heroic astronaut climbing down this moon ladder would plummet to earth and die.

"Every ton of recycled office paper saves 380 gallons of oil."

• And how do you think that affects our relations with traditional American allies such as Saudi Arabia and Venezuela? Five words: It is bad for them.

"Most cars on U.S. roads carry only one person. We have so much extra room in our 140 million cars that everyone in Western Europe could ride with us."

- I'll bet they could, those freeloading Frankish bastards. Do you want three to seven complete strangers spilling their chardonnay and fromage du chèvre all over your leather interior?

"Americans discard 4 million tons of office paper every year—enough to build a 12 foot-high wall of paper from New York to California."

- My question is, why do the enviro-deceivers want to divide our great nation in half?

What Can I Do?

BEFORE

- Turn on all lights and open all refrigerators when you leave a room.
- Turn on both the heater and the air conditioner at maximum power. Watch them do battle.
- At the grocery store, choose paper and plastic.
- Dress up as a waste management worker and go around your college picking up recycling bins, then throw them on the highway.

AFTER

A Brief History of Throwing Things Away

2560 BC, Giza, Egypt: The pharaoh Khufu throws away 2,400,000 stone blocks into a giant pile in the desert. Result: The greatest Wonder of the World.

1773, Boston, Massachusetts: A group of patriots led by Samuel Adams throws away 45 tons of tea belonging to the British East India Company. Result: The invention of freedom.

1944, Normandy, France: The American Armed Forces throw away over 230,000 troops and thousands of tons of artillery onto the German-held beaches of Normandy. Result: America defeats Hitler and the Nazis.

1969, Cape Canaveral, Florida: NASA throws about five thousand tons of metal at the moon. Result: America defeats Brezhnev and the Communists.

3019 in the Third Age, Orodruin, Mordor: Frodo Baggins throws away the Ring of Power in the crack of Mount Doom. Result: peace for all humans, elves, and dwarves and the birth of the golden Fourth Age of Middle-Earth.
